WHAT CLIENTS SAY ABOUT RUSS

Russ & I recently passed the 2 year mark together. I went back and looked at what my dreams, goals & rewards were when we started along with the timeline we had set. To my surprise, we were closing in on the 5 year goal we'd set in just 2 years... My company will double in size this year. I am a better leader, better husband, better podcaster, better listener, better note taker, better question asker, better C.E.O. but most of all a better person...Russ has not only added value to me but to my executive staff as well. I can see us working together for many years to come. Thanks coach!!
